

HYPR PRO CERTIFIED SALES RECORDING SYSTEM – REMUNERATED PASSENGER TRANSPORTATION

THE SRS IS NOT CONNECTED TO THE TAXIMETER OR TO THE PAYMENT TERMINAL

SRS FEATURES

Basic functions:

- Independent SRS: You can use it with all companies.
- Several reports (income, taxes, dues, etc.)
- Supports most printers on the market and those of all other developers of a SRS certified by Revenu Québec.

Optional features:

- Receive orders
- Access to reservations
- Access to waiting orders
- Serving pickups on the taximeter, fixed price or by hour
- Allows to send a new call on the platform (requires special permission)
- Check Before Departure (e-log book)
- Tip book (for tips not included in the invoice)
- Creating an electronic/paper contract (Flat or Hourly Rates) between you and your customer
- Manage Paying agent (business customers)

Following your suggestions:

- Recall for oil change (to come)
- Incident report in photo (to come)
- Built-in taximeter (when it will be available)

SRS LICENSES

You have the choice between two types of license:

User licence: The driver can install the SRS on several devices (recommended for a driver who uses his own vehicle).

Device licence: Several drivers can install the SRS on the same device (recommended for those who rent their vehicles).
