

HYPRA PRO CERTIFIED SALES RECORDING SYSTEM – REMUNERATED PASSENGER TRANSPORTATION

FEATURES

Basic functions:

- Independent SRS: You can use it with all companies.
- Several reports (income, taxes, dues, etc.)
- Supports most printers on the market and those of all other developers of a SRS certified by Revenu Québec.

Optional features:

- Receive orders
- Access to reservations
- Access to waiting orders
- Serving pickups on the taximeter, fixed price or by hour
- Allows to send a new call on the platform (requires special permission)
- Check Before Departure (e-log book)
- Tip book (for tips not included in the invoice)
- Creating an electronic/paper contract (Flat or Hourly Rates) between you and your customer
- Manage Paying agent (business customers)
- Payment by Square and issue of the transaction payment receipt and the SRS invoice in a single operation

Following your suggestions:

- Recall for oil change (to come)
- Incident report in photo (to come)

DEVICES

Wireless Taximeter

No holes no wires in your vehicle.
It is like a classic taximeter with wiring except that the OBD is Bluetooth.
Installation and setup **\$100**

Wireless dome

No holes no wires in your vehicle.
The dome is connected via Bluetooth to the wireless taximeter. Price **\$190**

Android 6 and plus device

You can have all of your needs on a single device: SEV, Order taking, Contract creation, VAD, Debit/credit card payment taking, Taximeter, Geolocation device, etc.

SIM card recommended for a stable connection **(\$10/month)**
